

# Andres Garcia

- My major is marketing. After graduate school, I plan to have a marketing job, but my main goal is to own my own business I put Scraped idea for a Y2K brand, and I'm no longer with them.

In terms of my technical background, I know how to use Excel, Word, and PowerPoint well, and I'm good with social media, including TikTok and Instagram, as well as tools like ChatGPT

My hobbies outside of school include spending time with my friends and listening to music. I like cars and going outside just to explore and have fun. My dream is to have my own clothing brand and have a CTSV or an Audi R8
